Summary

MSc Data Science student with a strong mathematical foundation and a keen interest in Machine Learning and predictive modeling. Skilled in Python, SQL, and data analysis, with hands-on experience in building and deploying machine learning models. Experienced in data preprocessing, feature engineering, and model evaluation through academic projects. Seeking an entry-level Data Scientist or Machine Learning Engineer role to apply analytical thinking and develop real-world solutions.

Skills

Programming: Python, SQL

Libraries: Pandas, NumPy, Scikit-learn

Machine Learning: Regression, Classification, Clustering (K-Means), KNN

Tools: Power BI, Excel, Streamlit, GitHub

Concepts: Data Cleaning, EDA, Feature Engineering, Model Evaluation

Projects

ML-Based Song Recommendation System (Python)

- Built ML-based recommendation system using 84,000+ songs dataset with feature-based filtering
- Applied Cosine Similarity, K-Means (8 clusters), and KNN for personalized recommendations
- Performed feature scaling and preprocessing on audio attributes (energy, tempo, popularity)
- Designed multi-method recommendation engine supporting song, genre, and artist queries

Personal Carbon Footprint Calculator (ML + Streamlit)

- Developed end-to-end ML pipeline with data preprocessing, feature engineering (8 features), and model evaluation
- Trained and compared Linear Regression, Random Forest, Gradient Boosting, and LightGBM models
- Achieved high performance ($R^2 \approx 0.99$) and selected best model based on evaluation metrics
- Deployed interactive Streamlit web app for real-time carbon footprint prediction and visualization

Power BI Dashboards

- **Credit Risk Dashboard:** Analyzed customer income, credit limits, and loan behavior using interactive filters and segmentation to identify key trends
- **HR Analytics Dashboard:** Visualized employee performance, salary trends, and workforce insights with KPIs and demographic analysis

Education

MSc Data Science 2025 – 2027 (Expected)
Marwadi University, Rajkot CGPA: 8.31

BSc Mathematics 2021 – 2024
Tolani College Of Arts And Science, Gandhidham CGPA: 7.41

Certifications

- **Data Mining with Python: Implementing Classification and Regression**
- **Explore Machine Learning using Python**
